

EAT

EAT IN THE TWO GREEN CIRCLES OF THE TARGET

This challenge focuses on eating high quality foods (superfoods) for 21 days straight. These superfoods are designed to help you achieve your goals and see maximum results. As you incorporate more superfoods and healthier upgrades, the less likely you are to overeat or have to count calories. Quality over quantity baby! If buying packaged foods, look for real ingredients that you can pronounce and avoid items that end with "ose." Less is always best.

Example: Peanut butter should only contain one ingredient: peanuts!

What CAN I Eat?

Friendly Fats

- Organic Virgin Coconut Oil
- Red Palm Oil
- Extra Virgin Olive Oil
- Cod Liver Oil
- Nuts / Nut Oil
- Nut Butters
- Avocado
- Olives

Focus on foods that contain 1 ingredients or are in their most natural state. All fruits and vegetables are allowed. Be mindful of how much and how often you indulge in the natural sweets. Remember that flavor comes from nutrients and most fruits will satisfy your sweet tooth. When buying animal products make sure to always choose organic when possible to avoid hormones, antibiotics, and GMO feed.
